

MILLER'S CUSTOM CABINETS, INC.

Phone: 816-630-2111 Fax: 816-630-6866

The following instructions include basic information to help you care for your cabinets in the best manner possible. Should you have any other concerns, or if you need additional information, please do not hesitate to contact us at the number listed above.

Door Adjustment:

Picture 1: The front screw will adjust the 'pair gap' (see picture 3.) This will bring the doors closer together or further apart.

Picture 2: The back screw will adjust the 'frame gap' (see picture 4.) This is used to adjust the door in and out from the frame of the cabinet so that it touches at both the top and the bottom.
